

Language courses Dutch for Expats

Introduction to Dutch for Expats

Bontekoe Language Centre has developed a series of courses specially for expats. These courses focus on social interactions. After all, many expats temporarily move to a town or city and want to connect with the people around them. During this intensive six-week course (two hours a week) we will treat the most common social activities in six blocks. These subjects concern **Shopping, Travel, The Home, School, Health and Work**. After the course you are proficient in Dutch on a social level. If desired, the course can be followed up with A1 and A2 Dutch.

Language Courses from the Heart!

How we achieve this? First of all we care for and commit to our students and only offer fitting, effective language courses – whether individually or in a group. Courses can be taken at our location in Arnhem, or we can come to you. We set up a personal curriculum, based on our own method ‘**Neerlands Hoop**’, for any applying student.

Who helps us achieve this?

A small, professional team with years of experience giving Dutch language courses. In order to give you every possible care and attention, we are deliberately small-scale. After completion of the course, students receive a certificate. We at Bontekoe Language Courses guarantee this. Furthermore, we have a digital helpdesk where students can post questions, or you can telephone us if you need help.
